Our small unique Resort in the Ozark Hills has been under construction for 30 years by the original owner/operator, who wants to say for the first time “We think we have got what you’re looking for”. We would love the opportunity to show you our new 3,600 sq. ft. Rendezvous Room which has been constructed into a beautiful lodge look with large glass windows overlooking the river. Relax and enjoy the fine food and premium drinks that you and your guests deserve. We also have optional entertainment and activities available for you and your guests, so that you can make the most of your event.

*We* look forward to accommodating you and being a part of your special day.

*Please* let us show you around and quote a catered reception just for you.

## *Weddings*

Each year we get a few more inquiries about getting married here on the resort. With the addition of our Rendezvous Room, we are now able to offer a more complete package. We can now cater your reception with tasty Hors D'oeuvres to finger lickin' BBQ plate dinners.

For wedding ceremonies, we have two options.

The first choice would be in the Rendezvous Room. This 3600 square foot building can hold about 180 people, has a wood burning fireplace and one end is glassed in overlooking the river.

The second choice would be an outdoor ceremony. For outdoor ceremonies, the sky is almost the limit.

Over the years, couples have used the dock, tent sites and some have even stood right out in the river!

Receptions will now take place in the Rendezvous Room. This room allows a lot of options for eating, dancing, gift openings, bouquet tosses and whatever else you want to plan for your special day.
